Ground Instructor Extraordinaire Pam Tobin says:

**Let's Talk Airspace!**

Confused by airspace rules, regulations and dimensions? Still uncertain between the old airspace designation and the “new A,B,C’s”? Do you fear flight reviews just because of your airspace misconceptions? Let’s talk. Once you get to know the “why” of the airspace, much of the confusion melts away. As a flight instructor of twenty-eight years I have helped hundreds of students come to terms with the multi-dimensional nature of airspace. Join me Saturday, Feb. 18<sup>th</sup> at 8:30 AM for a comprehensive look at airspace—and we’ll have some fun along the way!
